PREPARATIONS FOR A GOOD YEAR OF GOLF

Will Make Game Attractive This Year by Improved Fairway and Driving Net

While a banquet round up in the night a meeting of golfers gathered in the Bank of Commerce last Tuesday evening and made plans for the coming season.

The officers elected for 1937 are: Pres., F. Murphy; Sec. Treas., J. Deporter; Executive - Gordon Foster, E. K. Picken, and W. F. Smith.

Increase Fee
The membership fee will be more than that charged last year, the new rates being \$10 for men, \$3 for ladies, and \$1 for school boys and girls.

Improve Course
The increase in membership fee has been made because of the increase in the expenditure of money for improvement of the course. This increased expenditure will be made chiefly on the fairway, which the club plans to keep clean and free from weeds and long grass. This will make it possible for players to enjoy the game at all times with a minimum of trouble with the balls.

Another improvement planned is the installation of a driving net, which will be set up on the first tee. Players may practice and improve their drive by use of the net. A good sized membership is hoped for this year, and it is realized sufficient funds will be available to keep the golf course in good shape the whole season.

Pool Gives Advice

The Wheat Pool is strongly advocating that members sow only good, clean seed in order that the high quality of Canadian grain may be maintained. Wheat grown on the Canadian prairie has the reputation of being the best wheat in the world. The pool is obtaining substantial premiums for its members wheat over the prevailing price for wheat grown in other lands. This high standard should be maintained.

It is there has been a tendency for Canadian wheat to be a mixture of many varieties, some of which are very inferior to Marquis. This is a dangerous drift and should be discouraged.

The pool is, therefore, concentrating in maintaining the high milling and baking qualities which have made Canadian wheat very popular in importing countries.

The use of good seed means higher yields, better grades through maturing evenly and freedom from weeds and infestations of other grades. Good seed germinates vigorously and uniformly and gives a higher percentage of seedlings capable of resisting unfavorable climatic and soil conditions.

George Melvor, western sales manager of the Wheat Pool, says, "The standard of the wheat salesman I would desire nothing better than that all our wheat in the province of Alberta be of the highest grade. It is my opinion that the European market is desiring to purchase reasonable quantities of high grade Canadian wheat. He must purchase this wheat to give the necessary strength to his flour."

There is no question but that the world at large appreciates the quality of our high grade wheat. It is my opinion saying that the growers of this province might do in the way of purchasing pure seed will be a decided aid to the pool in the sale of its wheat to the world's market."

Two Bassano Men Take Over Garage Business At Gleichen

A. P. MacCallum Branches Out Into Automobile Field

Two eighth and A. P. MacCallum, two well known business men of Bassano, have taken over the Martin Motors, of Gleichen. The deal was set through on Wednesday of this week, and the new owners are taking over the business at once.

The new firm will be known as A. P. MacCallum and Roy Smith Motors. The business will be managed by Mr. MacCallum, who has resigned his position with the Canadian Bank of Commerce. He will move to Gleichen about the beginning of next month.

The business acquired by the two partners is the largest garage business in Gleichen. The new owners will be agents for Ford cars and trucks, and will operate one of the best equipped repair shops between Calgary and Medicine Hat.

Mr. Smith and Mr. MacCallum plan to enlarge the stock room and office, and will also make other improvements.

NOT ALL ROSES IN CALIFORNIA

Geo. Vile, formerly of Gem, writes from Central California to say that while people there have their troubles too, Mr. Vile went to California with the object of making his home there. He says that times are close in that part of the state and the tone of his letter indicated that he was not very favorably impressed with the country.

Golfers and Gophers Were Out on Sunday

Warm Weather Brings Out Golf Enthusiasts—Many Gophers Are Seen

The spell of sunny, warm weather lasted long enough to permit a number of golfers to play their first game of the season last Sunday. The day was bright and sunny, the air was warm and balmy, and the golfers got out their clubs and limbered up with the first game after the long winter.

But it didn't last long, for Monday was cool and cloudy, and the weather prophets say, and shortly after noon began to fall. The storm continued Monday night and all day Tuesday, bringing several inches of soft, wet snow.

In their game on Sunday the local golfers found the links a little muddy in places, and lots of water in the low spots. The eighth green was the only one with water on it.

The warm weather Sunday brought out a lot of gophers. It must have been an easy winter for these little pests, for all were fat and sleek, and showed every sign of being well fed.

Giving Assistance With Farm Help

The new work undertaken by the sugar beet and colonization committee of the Bassano Board of Trade will doubtless be of some aid to farmers in getting their labor for their farm operations and in assisting in colonization work by co-operating with the colonization branch of the C. P. N., but it will not, however, supersede the work of R. A. Travis, the Bassano representative of the provincial government labor bureau.

A number of years ago, Mr. Travis has rendered the farmers of the surrounding district a splendid service by supplying their needs in the way of farm labor during the busy seasons of seeding and harvesting, or at any other time of the year. He has done this by co-operating with the provincial government employment bureau at Calgary. Mr. Travis expects to continue to give farmers this service.

With no sources for the supply of farm help and other employment, there should be no difficulty in getting labor needs filled this year.

Chancellor

CHANCELLOR, March 16.—The court whist party and dance of which J. M. Wheatley was the sponsor passed off with much edict last Friday. This was in aid of the Pioneer picnic fund.

The Canadian Legion social evening held on March 8 was a most enjoyable affair. About thirty veterans and their friends gathered at the Ploegsteert school and spent the time in card playing, singing, and dancing. A happy intermission was provided from the usual run of affairs when Tom Cassidy, the school teacher, gave us a half hour's talk on his experiences, while a prisoner of war in Germany. It was to be regretted that a greater number of Legion members did not avail themselves of the opportunity of attending the affair.

Mrs. E. S. Naylor was a recent visitor to Gleichen, seeking medical advice from Dr. H. Bowles.

Last Friday evening the Chancellor Masons entertained their brethren from Hussar to a picture show and dance in the Chancellor Memorial Hall. Zane Gray's "Forsaken River" was the picture shown on the screen. P. Crowe, J. P., was the first prize winner later in the evening at the buffet supper.

On March 7 Mrs. Elkins and Mrs. Penner entertained the numbers and dance in the Chancellor W. I. at what at the home of Mrs. Penner.

During the past week the snow rapidly disappeared in its vicinity, making it possible to travel on the thing nor thing, but with the recent storm sleighing should come into its own again, if only for a few days.

A persistent rumor, as yet undenied, is to the effect that the Chancellor Hotel will shortly be going to the Royal Bank.

On March 10 Ben S. Plamer, wheat pool director for South Calgary district, spoke at a meeting held in the meeting hall at Chancellor. Several non-union players were present, and it is hoped that what they heard will induce them to sign up for the coming year at least.

Mr. Plamer was quite definite that a pool elevator would be either built or acquired at this point to handle wheat for this crop season.

The auction sale of C. Ratray's farm stock has been postponed until the 18th inst. as the weather was too bad.

Mr. and Mrs. T. P. Rogers, of Rockyford, are visiting with their son Philip, south of town.

Mr. and Mrs. Anderson came home from Bassano Hospital Monday evening where she has been the past ten days under the care of Dr. Scott.

Miss Bingham and Mrs. Slus were visitors at the Dingley home on Sunday.

After a bad fall on the ice J. C. Cline's eldest daughter was unconscious for nine hours. Dr. DeSilva attended the child.

CROPS AT PORT VERMILION
Twenty-three farmers in the Port Vermilion district, in the far north-western part of Alberta, 560 miles from the nearest town, have been struck by the worst blizzard in the history of the province, last year raised a total of 3,200 bushels of wheat and 13,000 of oats.

The blizzard was for what was 28-1/2 bushels to the acre, and for oats the average was 36 1/2 bushels to the acre. They also had an average yield of barley of 30 bushels to the acre. This is the farthest north point in Alberta raising grain, and is some 200 miles farther north than the farm of Herman Treble, who was raised the world's champion wheat and oats in 1925.

Tom Mix and his wonderful horse Tony will be seen at the Gem Theater Friday and Saturday next week in "Hard Boiled."

BIG FARMING COMPANY IS CLOSING DOWN

Entire Equipment of Springfield-Alberta Farm Will be Sold

One of the biggest farms in this part of the province, the Springfield-Alberta Farm, is closing operations. The entire equipment of the big farm including horses, cattle, machinery and household goods, will be put on the auction block and B. T. Gray, the Gem auctioneer, will knock them down to the highest bidder on Friday March 23.

The Springfield-Alberta Farm was started in the year 1913 by a number of capitalists from Springfield, Massachusetts, from which it derived its name. The farm is situated about sixteen miles north of Bassano, and consists of 2,300 acres of land, none of which is irrigated.

The first manager of the farm was a Mr. DeWitt, of Massachusetts, who directed operations in 1912 and 1913. E. P. Maurer, of Bassano, was manager from 1914 to 1920, and from 1920 to the end of 1925. Mr. Maurer harvested a number of good crops, and in 1920 cleared about \$25,000 for the company. Good crops were also taken in 1917 and 1918.

It is not yet known what the company will do with the land, but it has been mentioned they will divide it up and sell it for smaller farms.

5,000 PAGES ABOUT CANADA

Canada's jubilee year, celebrating the sixty years of confederation, is fittingly emphasized in the 1927 issue of "5,000 Pages About Canada," one of the famous tabloid-cyclopedias of the Dominion compiled by Frank Veigh, the well known Canadian publicist, lecturer, and author. It is a tonic to read of our remarkable national progress, as tersely set forth in this unique booklet, under fifty chapters, from "Agriculture" to "Yukon."

The contents are more varied than ever, and will prove a revelation to the reader. No better way of making known our resources, wealth, and prospects could be found in publication, and it should have wide circulation this year. The government could well afford to use it widely in this and other countries. Copies may be had from leading bookstores, or by sending 35 cents to Canadian Pacific Publishing Co., 508 Huron Street, Toronto, 2, Canada.
